

## 6.170 Team Contract for Spicy Avocado

**Project git repository:** <insert link>

**What are the expected levels of achievement and effort for each team member?**

- Finish the project
- Make something we're proud of
- Write production level code with tests
- Apply everything we learned in 6.170, including the whole design process

**What are the personal goals for each team member?**

- Steven:
  - Commit often and write good commit messages
  - Learn more about designing in Vue
  - Learn how to design better user experience/frontend
  - Go through the entire process of creating a web app
- Roberto:
  - Become familiar with creating functional and useful web applications
  - Gain a greater understanding of the social and ethical implications of my part of the project
- Raveen:
  - Become more comfortable using external APIs
  - Improve my frontend design skills
  - Practice reviewing other people's code
  - Practice writing good tests
- Yanni:
  - Learn how to create better design docs and better user interfaces
  - Gain more practice for testing in javascript
  - Improve my developer skills by working on a full web app from beginning to end
  - Write code that is safe from bugs, easy to understand, and ready for change

**When, where, and how often will team meetings occur?**

- Thursday: 7:00pm at Simmons or Student Center
- Saturday: 8:00pm at Simmons or Student Center

**How will the quality of work be maintained?**

- Manual code reviews during our meetings + remote
- Remote: code review pull requests (at least 1 approval)
- Comments for others to understand
- Testing for new features

**How will tasks be assigned?**

- Come up with tasks during meetings
- Assign tasks based on individual workload (or by volunteering if someone volunteers)

**What to do if deadlines are missed?**

- Talk to person missing deadlines to see if anything is wrong
- If no improvement, meet as a group to address the problem and decide what to do next (such as redistributing the work)

**How will decisions be made and disagreements resolved?**

- Make decisions with 100% agreement if possible
- Resolve disagreements by discussing it out during team meeting and negotiating until get 100%

Signed,

*Roberto Ramirez*

*Yanni Wang*

*Raveen Nzilani*

*Steven Diaz*
